One of the unfortunate men was married, but the NEWS could not learn which it was. Both were young.

HAS LOCAL INTEREST.

The following from the Louisville Courier-Journal has local interest from the fact that the ladies named are sisters-in-law, of Mrs. Keene Langhorn, formerly Miss Sadie Reynolds, of this city.

Richmond society is keenly interested in the announcement that Mrs. Charles Dana Gibson, of New York, is to return to her old home to sing at the charity concert to be given there.

As Miss Irene Langhorn, Mrs. Gibson was one of the most popular girls in Richmond. Her beauty and charming personality won her the friendship of the late Mrs. William Astor, then the leader of New York society.

Mrs. Gibson has a beautiful soprano voice. The concert at which she is to sing will be given in the Jefferson auditorium for the benefit of the Shekering Arms Free Hospital, an institution which both Mrs. Gibson and her sister, Mrs. Waldorf Astor, have aided for years.

The board is passing on applications of those most in need first.

RESURVEY OF BIG SANDY.

Washington, Jan. 15.—Representative Hughes, of West Virginia, after a visit to the War Department to-day felt more cheerful over the prospects of improvement of the Big Sandy than he has since he and Representative Langley, of Kentucky first began pounding on the subject.

Mr. Hughes bore away from the engineer's office the intimation that the resurvey of the Big Sandy project will shortly result in a favorable report which will eventually mean ten dams on the Levisa Fork and six on the Tug Fork of the river.

C. L. V. & V. Ry.

The surveying corps of the Cincinnati, Licking Valley and Virginia Railroad has reached Baker, in Letcher county, just across the Big Sandy river from the Virginia line. This is the best news we have heard concerning the proposed new railroad—West Liberty Courier.

A SINGULAR CASE.

A few days ago Mr. Doll Frazier, of Glen Hayes, W. Va., brought one of his children, a little girl of about 12 years, to Dr. York for treatment for some nervous trouble. In the course of his examination of the child the doctor found that the right tonsil was much enlarged. Upon a closer examination he concluded to open the tonsil, when he found in it a stone as large as a pigeon's egg. It had been formed by repeated deposits of calcareous or "lime" matter. The doctor extracted it and the girl is evidently better. This stone was probably the cause of her trouble.

On Wednesday last Miss Alvah Burgess Snyder reached the mature age of nine years, and her parents gave her a delightful party in honor of the event. GREAT MASS OF PROOF.

Reports of 30,000 Cases of Kidney Trouble, Some of Them Louisa Cases.

Each of some 6,000 newspapers of the United States is publishing from week to week, names of people in its particular neighborhood, who have used and recommended Doan's Kidney Pills for kidney backache, weak kidneys, bladder troubles and urinary disorders. This mass of proof includes over 30,000 testimonials. Louisa is no exception. Here is one of the Louisa cases.

Mrs. Fred Picklesimer, Louisa, Ky., says: "All I said in 1909 when I gave a public statement recommending Doan's Kidney Pills was correct. For years I had kidney trouble. The kidney action was irregular, my back ached and there were pains in my sides. I was nervous and mornings I felt all worn out. When I heard about Doan's Kidney Pills I used some and they made me strong. I have had no further trouble."

BRANCH LINE PLANNED.

Whitesburg, Ky., Jan. 19.—The first branch of the new Lexington & Eastern railroad is to be built twenty miles up Line Fork creek on the southern border of Letcher-co. to tap rich coal and timber fields of that section. The survey is now in progress. The purchase of right-of-way has already been begun, and it is reliably stated that the contract will be let within the next sixty days. A number of big corporations own extensive areas along Line Fork, all of which will be developed as soon as the road is completed. Some of

the best steam and canal coal in Eastern Kentucky has been mined from this field, while the timber is the finest in the mountains, there being virgin tracts of all kinds of hardwoods.
